GIL/Manpower Tender/ HRM010202602/2026/

Date: As per approval

**Empanelment of agencies for providing "IT Technical Manpower" for GIL & various Govt. Departments / Offices / Boards/ Corporations/ Company etc. through GIL under tender no. : HRM010202602**

GIL have finalized 12 agencies for empanelment under tender no. HRM010202602 for providing "IT Technical Manpower" for GIL & various Govt. Departments / Offices / Boards/ Corporations/ Company etc. through GIL for outsourced IT Technical Manpower.

We are pleased to inform you that the stated tender will be applicable from 01.04.2026 for new recruitment and existing manpower. Departments wherein manpower are deployed vide tender no. HRM2803202202 will have to complete the process of shifting existing manpower from current tender to new tender w.e.f 01.04.2026.

All ongoing requirement under existing tender (no. HRM2803202202) stands cancel w.e.f 31-03-2026. Department can approach empaneled agencies in respective TIERS for transition and recruitment. However, if in case any department needs to process recruitment through GIL, concerned department will have to submit revised equivalent post, applicable TIER, rates and budgetary approval of the rates.

All departments and agencies empaneled under this tender shall abide by the tender terms and conditions mentioned in the RFP no. HRM010202602. For detailed tender, kindly visit website of GIL and link of the same is:

<https://gil.gujarat.gov.in/TenderDetails.aspx?TenID=22595>

The department is requested to note that from 01.04.2026, it is necessary to pay the agency the revised rate for the manpower(s) deployed at their department and payment as per old tender will not be allowed. The empanelment of above agencies for providing IT Technical Manpower on contractual basis will be applicable for the period of 3 years i.e. from 01.04.2026 to 31.03.2029.

The contact details of the agency is attached with this letter.

Regards,

Gujarat Informatics Limited,

GM F&A and GM Services

- conditions.
2. Received request form will be analyzed by GIL and in case of any discrepancy then respective department will be required to modify the same. Only recruitment request as per the tender will be floated to all empaneled agencies by GIL.
  3. Agencies will have to provide CVs as per the recruitment request and tender terms after due verification strictly as per the requirement and in the format given by GIL.
  4. In case multiple agencies submits resume of same candidate(s), profile will be considered through empaneled agency who submitted candidate first. (e.g., date and time of the submission will be considered for the claim of first submission).
  5. Department/GIL will schedule interview as per requirement. Interview committee shall comprise of Representative(s) from Department, Technical Representative(s) from/by Department, Technical Representative(s) GIL (only on request if same expertise resource is available with GIL and when technical expert is not available at department).
  6. During the interview process GIL-HR Representative will be available for coordination with Department and respective Agency Representative will be available for coordination with Candidates for smooth interview (online/offline) process.
  7. Respective Agency shall maintain the ratio of 1:3 where against 01 post, minimum 03 candidates has to attend the interview. Agency should update the attendance of the interview by the end of next working day so that GIL can seek for feedback from respective Department.
  8. Respective Department shall provide feedback within 05 working days which shall include marks and selection of candidate as well as remarks for Rejection with detailed reasons/ Next round of interview/ practical / Selection. (Candidate with minimum 60% marks will be considered for eligible for next round of interview/practical/selection).
  9. Once the feedback is received by Department, GIL/Department shall inform the same to respective agency. Agency will confirm acceptance with Date of Joining of the candidate to GIL/Department which will be shared to respective department.
  10. GIL will share the selection of the candidate/s to the respective department and on the basis of that respective department will issue the work order to the concerned agency. All further communications and process like payment, renewal, revision in pay, grievance etc shall be done by respective Department.
  11. Further, respective department will take care of the payment at their level.
  12. GIL will charge 3% of unit rate for 6 months from the date of joining of the manpower services provided to the respective department as per DST GR: – LAN-2004-927-DST dated 30th July, 2004. In case any employee leaves department before 6 months, surplus/deficit will be adjusted as per the respective Unit Rate.
  13. In case of resignation of any employee, respective department will give confirmation for resignation acceptance and generate new requirement.

### 3. Switching of Resources

- a. Under the contract period, it is not permissible to switch resources from one empaneled agency to another EMPANELED AGENCY, one TIER to another TIER and one department to another DEPARTMENT with same empanelment. Empaneled agencies are required to conduct a comprehensive background check of the proposed resources prior to presenting their CVs to the Tenderer, to avoid any violation of this provision.
- b. If a resource is engaged under this contract from one agency can join other empaneled agency only in case if he/she has resigned and completed 03 months' duration post his/her relieving from the previous empaneled agency.

**Note: No candidate/employee will be allowed to switch from one TIER to another TIER during the entire tenure under this tender.**

### 4. PERFORMANCE GUARANTEE

The Selected Agency(ies) shall furnish Performance Bank Guarantee as under:

Category	PBG Amount	In words
Tier-1	INR 1,00,00,000.00	Rupees One Crore Only
Tier-2	INR 60,00,000.00	Rupees Sixty Lakhs Only
Tier-3	INR 10,00,000.00	Rupees Ten Lakhs Only

File No: GIL/ITC/e-file/222/2025/0570/Hr and Admin Dept(PandA)  
Approved By: Managing Director, MD Office, GIL

### GUJARAT INFORMATICS LIMITED

CIN: U74999GJ1999SGC035459, Block No. 2, 2nd Floor, C & D Wing, Karmayogi Bhavan, Sector 10A, Sector 10, Gandhinagar, Gujarat 382010

Phone: +91-79-23256022 | Fax: +91-79 23238925 | www.gil.gujarat.gov.in

*Open the document in Adobe Acrobat DC to verify the E-sign*

The performance guarantee will be in the form of bank guarantee for the amount as mentioned above towards faithful performance of the contract obligation, and performance of the equipment during Warranty period. In case of termination of contract, the TENDERER shall invoke the PBG.

The Performance Guarantee shall be valid for a period of 180 days beyond Contract period and shall be denominated in Indian Rupees and shall be in the form of an unconditional Bank Guarantee issued by all Public-Sector Banks/private banks having branch in Gandhinagar\Ahmedabad in the format provided by the TENDERER to be submitted Within 15 calendar days from the date of final work order.

## 5. Revision in Unit Rate

### Remuneration Revision:

1. Revision in the man-month cost shall be 05% per year on previous year cost shall be applicable.
2. Revision shall be applicable from second (2nd) year onwards up to the contract period or any subsequent extensions, if any.

## 6. Penalties And Service Level Agreement (SLA)

Subject to conditions of Contract if the successful agency fails to deliver or perform the Services within the period(s) specified in Milestones indicated in Deliverables, competent authority shall, without prejudice to its other remedies under the Contract, deduct from the invoices or PBG, as penalty, deduction would be undertaken as per the penalties defined below:

### SLA & Penalty Terms

S. No.	SLA	Timelines/ Event	Applicable Penalty
1	Deployment of the resources.	Within 60 (Sixty) days of intimation of approval by the TENDERER.	No penalty- If the resource provided by Selected Agency(ies) within 60 days.  Rs. 500/- per position per day for each day delay from stated timelines.
2	Penalty on default of notice period	60 Days' notice period to be served by the deployed resource	No penalty- If 60 days' notice period served by the resource.  Penalty of deficit days of respective resource shall be imposed in proportion of monthly unit rate if notice period served less than 60 days.
4	Default on non- submission of CVs	Sponsoring of candidates within TIER wise deadline (in no. of working days) of intimation.  TIER I : 15 days TIER II : 10 days TIER III : 7 days	No Penalty: Submission of eligible CVs within TIER wise deadline (in no. of working days) of intimation.  Rs. 500/- per position per day delay beyond timelines.
5	The deployed resources shall not be engaged in any activity other than that assigned by the TENDERER		Penalty of Rs. 50,000 per resource may be imposed on breach of SLA or may lead to termination of the contract.

6	Background verification of selected resource.	Within 30 days after Joining of candidate.	"In the event of any issues arising from the background verification of a candidate, a penalty equivalent to 15 days of the candidate's monthly remuneration shall be imposed. Furthermore, if the candidate is found any fraudulent activity, the contract for the candidate shall be terminated immediately."
7	Absence without prior approval from the TENDERER. (Absconding matters)		Penalty of Rs. 1000/- per resource per day shall be imposed from the date of the absence. The timeline for replacement shall be considered from the date of intimation by tenderer/department within 15 days
8	Failure in joining of selected resource		Rs. 1,000/- per resource per individual case
9	Penalty on account of delayed Remuneration	The Selected Agency(ies) shall pay the Remuneration within 01st to 10th day of every month to the engaged resource with the Tenderer.	Rs. 500/- per resource per individual case.
10	Penalty on account of submission of CVs without pre- screening	The Selected Agency(ies) shall submit the profile of the sponsored candidates after pre-screening at their level matching the required technical and educational qualification criteria.	"No penalty shall be imposed for up to three pre-screening related lapses across all positions within a Month. Beyond this limit, a penalty of Rs. 2,000/- per case shall be applicable."

Note: -

It is clarified here that if the delay in deployment of resources is due to delay in approvals on part of the TENDERER then, no penalty shall be imposed on the bidder for that time period.

In case of failure to meet the standards of the tenderer, (which include efficiency, cooperation, discipline, and performance) bidder may be asked to remove the resource without any penalty for exit.

A penalty of Rs. 50 Thousand (INR) per resource will be levied if a resource who has not resigned and is removed from the project by the selected agency (ies).

An overlap period cost of maximum upto 7 working days shall be paid as per the final decision of Department/Tenderer.

## 7. Adherence to the HR Policy

The bidder shall be abided to follow on its engaged resources with the Tenderer/Department.

- Selected employee will get 18 paid leaves per contract of 12 months (1.5 per month) on pro-rata basis, that will not be encashed or carry forward at the end of contract.
- Deputed resources will have to adhere to the tenderer's/department business hour, working days and holidays. However, they may have to work on weekly off day/holidays as per the requirement. Decision of tenderer/department in this regard will be binding on bidder.
- In case of resignation, employee will have to serve minimum 02 month of notice period from the date of resignation submitted to respective department and agency.

- However, if a resource has to undertake a tour in the interest of the project with the prior approval of tenderer/department, then tenderer/department shall reimburse travelling Allowance (TA) as per admissibility. TA will be paid as per tenderer/department policy.
- If date of joining for any contract is holiday, then next working day will be considered.
- If end date of any contract is a holiday, then previous working day will be considered.
- In case of early relieving from Department side, no penalty shall be imposed to agency.

## 8. Payments Terms

The payments to the successful bidder will be made on monthly basis on acceptance of the invoice by the TENDERER/department or its designated agency.

Invoice should be raised in English language only with attendance.

Invoice shall be raised as per the details given by Tenderer/department.

The invoice would be processed for release of payment after due verification of the invoice and other supporting documents by the TENDERER or its designated agency.

Payment shall be made in Indian Rupees. While making payment, necessary TDS, income tax and any other applicable tax, if any, shall be deducted.

Desirable Requirement		
<b>19. Cloud Architect</b>		
Educational Requirement	- MCA OR - BE / B.Tech. with specialization in Computers Science/ IT/ Electronics & Communication) or Equivalent specialization OR - M.Sc./ M. Tech/ ME in Computer Science/IT or Equivalent specialization OR - Master's degree Electronics with Post Graduate Diploma in Computer Science or Equivalent specialization - Specialized certification in Cloud Architecture will be given preference	Will be informed after award of contract and while placing the resource requirement request by the TENDERER
Technical Requirement		
Desirable Requirement		
<b>20. DB Developer</b>		
Educational Requirement	- MCA OR - BE / B.Tech. with specialization in Computers Science/ IT/ Electronics & Communication) or Equivalent specialization OR - M.Sc./ M. Tech/ ME in Computer Science/IT or Equivalent specialization OR - Master's degree Electronics with Post Graduate Diploma in Computer Science or Equivalent specialization	Will be informed after award of contract and while placing the resource requirement request by the TENDERER
Technical Requirement		
Desirable Requirement		
<b>21. Blockchain Developer</b>		
Educational Requirement	- MCA OR - BE / B.Tech. with specialization in Computers Science/ IT/ Electronics & Communication) or Equivalent specialization OR - M.Sc./ M. Tech/ ME in Computer Science/IT or Equivalent specialization OR - Master's degree Electronics with Post Graduate Diploma in Computer Science or Equivalent specialization	Will be informed after award of contract and while placing the resource requirement request by the TENDERER
Technical Requirement		
Desirable Requirement		
<b>22. Business Analyst</b>		
Educational Requirement	- MCA OR - BE / B.Tech. with specialization in Computers Science/ IT/ Electronics & Communication) or Equivalent specialization OR - M.Sc./ M. Tech/ ME in Computer Science/IT or Equivalent specialization OR - Master's degree Electronics with Post Graduate Diploma in Computer Science or Equivalent specialization	

	Technical Requirement	Will be informed after award of contract and while placing the resource requirement request by the TENDERER
	Desirable Requirement	
<b>23. Project Manager</b>		
	Educational Requirement	- MCA OR - BE / B.Tech. with specialization in Computers Science/ IT/ Electronics & Communication) or Equivalent specialization OR - M.Sc./ M. Tech/ ME in Computer Science/IT or Equivalent specialization OR Master's degree Electronics with Post Graduate Diploma in Computer Science or Equivalent specialization
	Technical Requirement	Will be informed after award of contract and while placing the resource requirement request by the TENDERER
	Desirable Requirement	
<b>24. ETL Engineer</b>		
	Educational Requirement	- BE/ B. Tech in Computer Science/ Computer Engineering/ IT or Equivalent specialization - BE/ B. Tech/ Master's in Computer Science/ Computer Engineering/ IT or Equivalent specialization (L3 Position)
	Technical Requirement	Will be informed after award of contract and while placing the resource requirement request by the TENDERER
	Desirable Requirement	
<b>25. AI/ML Engineer</b>		
	Educational Requirement	- BE/ B. Tech in Computer Science/ Computer Engineering/ IT or Equivalent specialization
	Technical Requirement	Will be informed after award of contract and while placing the resource requirement request by the TENDERER
	Desirable Requirement	
<b>26. Data Scientist</b>		
	Educational Requirement	- BE/ B. Tech in Computer Science/ Computer Engineering/ IT/ Data Science/ Statistics or Equivalent specialization
	Technical Requirement	Will be informed after award of contract and while placing the resource requirement request by the TENDERER
	Desirable Requirement	
<b>27. DevOps Engineer (AI/ML)</b>		
	Educational Requirement	- BE/ B. Tech in Computer Science/ Computer Engineering/ IT or Equivalent specialization - Specialized certification in Dev Ops will be given preference
	Technical Requirement	Will be informed after award of contract and while placing the resource requirement request by the TENDERER
	Desirable Requirement	
<b>28. AI Data Analyst</b>		
	Educational Requirement	- BE/ B. Tech in Computer Science/ Computer Engineering/ IT or Equivalent specialization
	Technical Requirement	Will be informed after award of contract and while placing the resource requirement request by the TENDERER
	Desirable Requirement	
<b>29. Technical Project Manager</b>		
	Educational Requirement	- BE/ B. Tech in Computer Science/ Computer Engineering/ IT or Equivalent specialization
	Technical Requirement	Will be informed after award of contract and while placing the resource requirement request by the TENDERER
	Desirable Requirement	
<b>30. Product Manager</b>		
	Educational Requirement	- MCA OR - BE / B.Tech. with specialization in Computers Science/ IT/ Electronics & Communication) or Equivalent specialization OR - M.Sc./ M. Tech/ ME in Computer Science/IT or Equivalent specialization OR Master's degree Electronics with Post Graduate Diploma in Computer Science or Equivalent specialization
	Technical Requirement	Will be informed after award of contract and while placing the resource requirement request by the TENDERER
	Desirable Requirement	

<b>31.</b>	<b>ERP Specialist</b>	
	Educational Requirement	- MCA OR - BE / B.Tech. with specialization in Computers Science/ IT/ Electronics & Communication) or Equivalent specialization OR - M.Sc./ M. Tech/ ME in Computer Science/IT or Equivalent specialization OR Master's degree Electronics with Post Graduate Diploma in Computer Science or Equivalent specialization
	Technical Requirement	Will be informed after award of contract and while placing the resource requirement request by the TENDERER
	Desirable Requirement	
<b>32.1</b>	<b>Consultant : Software, IT Technologies, e-Governance consultancy/ Project Management and Technology Enablement</b>	
	Educational Requirement	B.E / B.Tech in CS/IT/EC OR MCA/MS(CIT) with relevant experience in Advisory services for IT Technologies/ Application / Software background with experience in handling IT and e-Governance projects, knowledge of Government domain is desirable.
	Technical Requirement	Will be informed after award of contract and while placing the resource requirement request by the TENDERER
	Desirable Requirement	
<b>32.2</b>	<b>Consultant : Hardware &amp; Networking</b>	
	Educational Requirement	B.E/B.Tech in CS/IT/EC or MCA/MS(CIT) or master's degree in computer science, Information Technology, Public Administration, Data Science, or a related field.  B.E / B.Tech in CS/IT/EC OR MCA/MS(CIT) with relevant experience in Advisory services for Hardware & Networking background with experience in handling IT and eGovernance projects, contract management/RFP/Agreement vetting in field of Data Center, Surveillance and Smart City project management & e-Governance and Projects knowledge of Government domain is desirable
	Technical Requirement	Will be informed after award of contract and while placing the resource requirement request by the TENDERER
	Desirable Requirement	
<b>32.3</b>	<b>Consultant : Policy Promotion/ Policy Advisory Support</b>	
	Educational Requirement	MBA (IT/Finance) or B.E / B. Tech in CS/IT/EC OR MCA/MS(CIT) or a related field with relevant experience in Policy Promotion/ Policy Advisory/ Policy Drafting.
	Technical Requirement	Will be informed after award of contract and while placing the resource requirement request by the TENDERER
	Desirable Requirement	

\*\* Specialized certification in Cyber Security, Cloud Architecture, DevOps etc will be given preference.

## Roles and Responsibilities

<b>1</b>	<b>Team Leader- Java Technologies/ Spring Boot</b>	
	<b>Job Summary</b>	Lead a Java development team to deliver scalable enterprise applications using Spring Boot. Responsible for technical oversight, mentoring, and collaboration with stakeholders.
	<b>Key Responsibilities</b>	-Lead and mentor Java developers -Ensure code quality and best practices -Collaborate with stakeholders to understand requirements -Troubleshoot complex technical issues -Oversee timely project delivery and reporting
<b>2.</b>	<b>Technical Team Leader- Dot Net Technologies / Other Open-Source Technologies</b>	
	<b>Job Summary</b>	Lead a development team using .NET or open-source technologies. Ensure high-quality delivery, adherence to best practices, and collaboration with stakeholders to meet project goals.
	<b>Key Responsibilities</b>	-Manage and mentor development team members -Oversee software design, coding standards, and deployment -Collaborate with clients and stakeholders to gather and clarify requirements -Conduct code reviews and implement best practices -Ensure timely and quality project deliveries

<b>3.</b>	<b>Solution Architect- Java Technologies/ Spring Boot</b>	
	<b>Job Summary</b>	Design scalable, secure, and high-performance software solutions using Java and Spring Boot. Provide technical leadership, oversee architecture decisions, and ensure alignment with business requirements.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>-Define architecture for Java-based enterprise applications</li> <li>-Align technology solutions with business goals</li> <li>-Guide development teams throughout the project lifecycle</li> <li>-Ensure system performance, scalability, and security</li> <li>-Conduct architectural reviews and risk assessments</li> </ul>
<b>4.</b>	<b>Solution Architect- Dot Net Technologies / Python Other Open-Source Technologies</b>	
	<b>Job Summary</b>	Design and architect robust, scalable, and secure solutions using .NET or open-source frameworks. Collaborate with stakeholders to define requirements and provide technical leadership throughout the development lifecycle.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Architect enterprise-level applications using .NET or open-source technologies</li> <li>- Translate business requirements into technical solutions</li> <li>- Guide development teams and ensure adherence to architecture standards</li> <li>- Evaluate and recommend tools, technologies, and frameworks</li> <li>- Ensure scalability, security, and performance of systems</li> </ul>
<b>5.</b>	<b>Software Developer – Java Technologies/ Spring Boot</b>	
	<b>Job Summary</b>	Develop and maintain Java-based applications using Spring Boot. Collaborate with cross-functional teams to define, design, and deliver high-quality software solutions.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Write clean, efficient, and well-documented Java code</li> <li>- Design and implement RESTful APIs using Spring Boot</li> <li>- Collaborate with front-end developers and testers</li> <li>- Participate in code reviews and Agile ceremonies</li> <li>- Debug and resolve application issues promptly</li> </ul>
<b>6.</b>	<b>Software Developer – Dot Net Technologies/ Other Open-Source Technologies (PhP Developer Only for Tier-3)</b>	
	<b>Job Summary</b>	Design, develop, and maintain applications using .NET or open-source technologies. Collaborate with teams to implement software solutions aligned with business needs.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>-Write clean, scalable code using C#, .NET, or open-source frameworks</li> <li>-Design and develop backend components and APIs</li> <li>-Collaborate with UI/UX and QA teams</li> <li>-Participate in sprint planning and code reviews</li> <li>-Maintain documentation and support deployment processes</li> </ul>
<b>7.</b>	<b>Full Stack Developer</b>	
	<b>Job Summary</b>	Develop and maintain both frontend and backend components of web applications. Collaborate with cross-functional teams to design, build, and deploy scalable and responsive solutions.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Design and implement frontend interfaces using modern frameworks (e.g., React, Angular)</li> <li>- Develop backend services and APIs using technologies like Node.js, .NET, or Java</li> <li>- Integrate databases, caching layers, and cloud services</li> <li>- Perform unit and integration testing</li> <li>- Participate in Agile development processes and collaborate across teams</li> </ul>
<b>8.</b>	<b>Developer User Interface/ UX/ Web Designer</b>	
	<b>Job Summary</b>	Design and develop intuitive, user-friendly web interfaces and experiences. Ensure visual consistency, accessibility, and responsive design across all platforms.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Create wireframes, prototypes, and high-fidelity designs</li> <li>- Develop user-centric interfaces using HTML, CSS, JavaScript, and design frameworks</li> <li>- Ensure cross-browser and mobile compatibility</li> <li>- Collaborate with developers and product teams to align UI/UX with functional requirements</li> <li>- Conduct usability testing and incorporate user feedback into design iterations</li> </ul>

<b>9.</b>	<b>Mobile App Developer (Android/ Flutter/ IOS)</b>	
	<b>Job Summary</b>	Design, develop, and maintain high-quality mobile applications across Android, iOS, and cross-platform frameworks such as Flutter. Collaborate with cross-functional teams to deliver user-friendly and responsive mobile apps.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Develop and maintain mobile applications using Android SDK, iOS (Swift/Objective-C), and Flutter</li> <li>- Integrate with RESTful APIs and third-party libraries</li> <li>- Ensure performance, quality, and responsiveness of applications</li> <li>- Work closely with designers and backend developers</li> <li>- Troubleshoot bugs and optimize application performance</li> </ul>
<b>10.</b>	<b>Data base Administrator</b>	
	<b>Job Summary</b>	Manage and maintain database systems to ensure their performance, availability, and security. Responsible for installation, configuration, and troubleshooting of database systems.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Install, configure, and maintain database systems (e.g., MySQL, SQL Server, Oracle)</li> <li>- Monitor database performance and optimize queries</li> <li>- Ensure data integrity, backup, and recovery</li> <li>- Implement security measures and manage user access</li> <li>- Collaborate with developers and system administrators for efficient data management</li> </ul>
<b>11.</b>	<b>System Administrator</b>	
	<b>Job Summary</b>	Responsible for the maintenance, configuration, and reliable operation of computer systems and servers. Ensure system availability, security, and performance to support business operations.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Install and configure software, hardware, and networks</li> <li>- Monitor system performance and troubleshoot issues</li> <li>- Manage user accounts and access controls</li> <li>- Maintain security and backup procedures</li> <li>- Ensure high availability of system infrastructure</li> <li>- Provide technical support and training to staff</li> </ul>
<b>12.</b>	<b>Cyber Security/ IT Security Expert/ Security Auditor</b>	
	<b>Job Summary</b>	Ensure the security of IT systems, networks, and data by identifying vulnerabilities, implementing safeguards, and performing audits. Work proactively to protect organizational assets from cyber threats.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Conduct risk assessments and vulnerability scans</li> <li>- Implement and monitor security measures and tools</li> <li>- Perform security audits and generate compliance reports</li> <li>- Investigate security breaches and recommend corrective actions</li> <li>- Educate employees on cybersecurity practices</li> <li>- Ensure compliance with relevant security standards and regulations</li> </ul>
<b>13.</b>	<b>Quality Analyst cum Application Tester (Manual)</b>	
	<b>Job Summary</b>	Responsible for manually testing applications to identify defects, ensure usability, and validate functionality as per requirements.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>-Review and analyze requirement documents</li> <li>-Design and execute test cases manually</li> <li>-Perform functional, integration, regression, and UAT testing</li> <li>-Log defects and verify fixes</li> <li>-Collaborate with developers and stakeholders to resolve issue</li> </ul>
<b>14.</b>	<b>Quality Analyst cum Application Tester (Automation)</b>	
	<b>Job Summary</b>	Responsible for designing, implementing, and maintaining automated test frameworks and ensuring application quality via test execution and collaboration with developers.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>-Develop automated test scripts</li> <li>-Execute and maintain test cases</li> <li>-Perform regression and performance testing</li> <li>-Report bugs and track fixes</li> <li>- Integrate automation in CI/CD pipelines</li> </ul>

<b>15.</b>	<b>Technical Support Engineer</b>	
	<b>Job Summary</b>	Provide technical assistance and support to end-users and clients. Troubleshoot hardware, software, and network-related issues and ensure timely resolution to maintain business continuity.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Respond to user queries via phone, email, or ticketing system</li> <li>- Diagnose and resolve technical hardware and software issues</li> <li>- Install, configure, and maintain IT systems</li> <li>- Document technical issues and solutions</li> <li>- Escalate complex problems to appropriate teams</li> <li>- Provide guidance and training to users as needed</li> </ul>
<b>16.</b>	<b>GIS Developer</b>	
	<b>Job Summary</b>	Design, develop, and maintain GIS applications and tools. Work with spatial databases and GIS software to support mapping, analysis, and decision-making processes
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Develop and maintain web-based GIS applications</li> <li>- Integrate GIS data with other enterprise systems</li> <li>- Analyze spatial data for geographic statistics</li> <li>- Customize GIS software to improve usability</li> <li>- Create and manage GIS databases and maps</li> <li>- Collaborate with stakeholders to gather GIS requirements</li> </ul>
<b>17.</b>	<b>Data Analyst</b>	
	<b>Job Summary</b>	Collect, process, and analyze data to help organizations make informed business decisions. Interpret data trends and create visualizations and reports for key stakeholders.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Collect and clean data from various sources</li> <li>- Analyze data to identify trends and patterns</li> <li>- Create dashboards and visual reports using BI tools</li> <li>- Work with teams to define business metrics</li> <li>- Present analytical findings to stakeholders</li> <li>- Support data-driven decision-making processes</li> </ul>
<b>18.</b>	<b>Python Developer</b>	
	<b>Job Summary</b>	Develop and maintain backend applications and services using Python. Collaborate with cross-functional teams to design scalable and high-performance software solutions.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Write efficient, reusable, and testable Python code</li> <li>- Integrate user-facing elements with server-side logic</li> <li>- Develop APIs and work with databases</li> <li>- Troubleshoot and debug applications</li> <li>- Collaborate with teams to gather requirements and design features</li> <li>- Ensure performance and security of applications</li> </ul>
<b>19.</b>	<b>Cloud Architect</b>	
	<b>Job Summary</b>	Design and manage cloud computing strategies and infrastructure for organizations. Ensure scalability, reliability, and security of cloud-based systems and services.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Design and implement cloud architecture using AWS, Azure, or GCP</li> <li>- Define cloud adoption strategies and best practices</li> <li>- Manage cloud infrastructure and ensure compliance</li> <li>- Collaborate with teams to migrate applications to the cloud</li> <li>- Optimize cloud resources and cost-efficiency</li> <li>- Monitor performance and troubleshoot cloud-related issues</li> </ul>
<b>20.</b>	<b>DB Developer</b>	
	<b>Job Summary</b>	Design, develop, and maintain database systems and solutions to support application development. Work closely with developers and analysts to ensure data efficiency and integrity.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Develop complex SQL queries, procedures, and triggers</li> <li>- Design and maintain database schemas and structures</li> <li>- Optimize database performance and query execution</li> <li>- Collaborate with application developers for data integration</li> <li>- Ensure data security, integrity, and backup procedures</li> <li>- Support data migration and transformation processes</li> </ul>

<b>21.</b>	<b>Blockchain Developer</b>	
	<b>Job Summary</b>	Design, develop, and implement blockchain-based solutions and smart contracts. Ensure secure and efficient decentralized applications aligned with business requirements.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Design and develop blockchain applications and protocols</li> <li>- Develop and deploy smart contracts using Solidity or other languages</li> <li>- Maintain and improve existing blockchain solutions</li> <li>- Collaborate with development and business teams to define architecture</li> <li>- Ensure security and performance of blockchain networks</li> <li>- Stay up-to-date with blockchain trends and best practices</li> </ul>
<b>22.</b>	<b>Business Analyst</b>	
	<b>Job Summary</b>	Analyze business needs, processes, and data to identify opportunities for improvement. Serve as a liaison between stakeholders and development teams to ensure effective implementation of business solutions.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Gather and analyze business requirements from stakeholders</li> <li>- Translate business needs into functional specifications</li> <li>- Collaborate with development teams to deliver solutions</li> <li>- Perform data analysis to support decision-making</li> <li>- Document business processes and workflows</li> <li>- Conduct user acceptance testing and provide training</li> </ul>
<b>23.</b>	<b>Project Manager</b>	
	<b>Job Summary</b>	Leads end-to-end project management across scope, cost, time, and quality, while liaising with internal/external stakeholders for successful delivery.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Define scope, plan, and schedule projects</li> <li>- Coordinate teams and vendors</li> <li>- Monitor progress and mitigate risks</li> <li>- Communicate with stakeholders</li> <li>- Ensure project goals and quality standards</li> </ul>
<b>24.</b>	<b>ETL Engineer</b>	
	<b>Job Summary</b>	Designs and manages ETL pipelines to extract, transform, and load data into analytical systems while ensuring performance and reliability.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Design ETL workflows and scripts</li> <li>- Monitor and tune performance</li> <li>- Ensure data integrity and quality</li> <li>- Collaborate with BI and DB teams</li> <li>- Document ETL processes and fixes</li> </ul>
<b>25.</b>	<b>AI/ML Engineer</b>	
	<b>Job Summary</b>	Develops and deploys machine learning models, integrating AI capabilities into production systems and optimizing performance.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Train/test ML models</li> <li>- Prepare datasets</li> <li>- Deploy models via REST APIs</li> <li>- Use frameworks like TensorFlow, PyTorch</li> <li>- Maintain ML pipeline and model lifecycle</li> </ul>
<b>26.</b>	<b>Data Scientist</b>	
	<b>Job Summary</b>	Analyzes large datasets using statistical and ML techniques to uncover patterns and build predictive models for business decision-making.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Explore and analyze data</li> <li>- Build statistical/ML models</li> <li>- Visualize and present insights</li> <li>- Collaborate with business units</li> <li>- Use Python, R, SQL, Tableau, Power BI</li> </ul>
<b>27.</b>	<b>DevOps Engineer (AI/ML)</b>	
	<b>Job Summary</b>	Implements MLOps practices to streamline deployment, monitoring, and lifecycle management of ML models and infrastructure.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Set up ML pipelines and CI/CD</li> <li>- Use MLOps tools (MLflow, Kubeflow)</li> <li>- Automate deployments with Docker/K8s</li> <li>- Monitor AI infrastructure</li> <li>- Support model versioning and rollback</li> </ul>

<b>28.</b>	<b>AI Data Analyst</b>	
	<b>Job Summary</b>	Prepares and analyzes data sets for training ML models; supports data annotation, validation, and visualization.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Data preprocessing and transformation</li> <li>- Annotation and validation</li> <li>- Perform data visualizations</li> <li>- Collaborate with AI/ML team</li> <li>- Use Excel, Pandas, Power BI</li> </ul>
<b>29.</b>	<b>Technical Project Manager</b>	
	<b>Job Summary</b>	Manages technology-driven projects, ensuring architectural compliance, security, and technical integration across teams.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Translate business needs into technical specs</li> <li>- Supervise development &amp; testing</li> <li>- Manage code integration &amp; architecture</li> <li>- Lead team meetings and reviews</li> <li>- Track KPIs and milestones</li> </ul>
<b>30.</b>	<b>Product Manager</b>	
	<b>Job Summary</b>	Oversees the product lifecycle from ideation to launch, aligning business goals, user needs, and technology to deliver value-driven solutions.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Define product vision and roadmap</li> <li>- Conduct market/user research</li> <li>- Write functional specs and user stories</li> <li>- Prioritize product backlog</li> <li>- Coordinate with cross-functional teams</li> <li>- Analyze KPIs and product feedback for iterations</li> </ul>
<b>31.</b>	<b>ERP Specialist</b>	
	<b>Job Summary</b>	Manages the implementation, customization, and maintenance of ERP systems to streamline and integrate core business processes across departments.
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Configure ERP modules (e.g., Finance, HR, Supply Chain)</li> <li>- Analyze business requirements for ERP mapping</li> <li>- Coordinate with vendors and internal IT teams</li> <li>- Conduct ERP training and support</li> <li>- Manage upgrades, patches, and integrations</li> <li>- Ensure compliance and data integrity across modules</li> </ul>
<b>32.1</b>	<b>Consultant : Software, IT Technologies-Governance consultancy/ Project Management and Technology Enablement</b>	
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Provide advisory services for IT technologies, applications, and software with experience managing IT and e-Governance projects.</li> <li>- Engage in IT consultancy and support for e-Governance initiatives.</li> <li>- Advise and assist in the implementation of digital transformation initiatives within the public sector.</li> <li>- Possess a strong understanding of e-Governance frameworks, digital transformation strategies, Government Process Re-engineering (GPR), and public sector operations in India.</li> <li>- Demonstrate expertise in IT systems, software solutions, and emerging technologies related to e-Governance, including AI/ML, blockchain, fintech, deeptech, quantum computing, cloud computing, and other niche areas.</li> <li>- Exhibit strong analytical and problem-solving skills, with a focus on providing practical, actionable recommendations.</li> <li>- Excellent communication and presentation skills to effectively convey technical concepts and reengineering strategies to non-technical stakeholders.</li> </ul>
<b>32.2</b>	<b>Consultant : Hardware &amp; Networking</b>	
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Manage and mentor development team members</li> <li>- Oversee software design, coding standards, and deployment</li> <li>- Collaborate with clients and stakeholders to gather and clarify requirements</li> <li>- Conduct code reviews and implement best practices</li> <li>- Ensure timely and quality project deliveries</li> </ul>

<b>32.3</b>	<b>Consultant : Policy Promotion/ Policy Advisory Support</b>	
	<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>- Support the development, promotion, and implementation of technology-related policies.</li> <li>- Provide advisory services on policy drafting, refinement, and optimization to align with government objectives.</li> <li>- Prepare detailed policy documents, benchmarking, briefs, and reports to facilitate strategic decision-making.</li> <li>- Collaborate with departments and stakeholders to ensure that policies are effectively communicated and promoted across relevant sectors.</li> </ul>

### **Manpower Type, Experience & UNIT RATE of Manpower (INR)**

Sr. No.	Manpower Type	Total Work Experience (Minimum)	Relevant Experience (Minimum)	TIER I	TIER II	TIER III
1.1	Technical Team Leader- Java Technologies/ Spring Boot	06 Years to 08 Years	02 Years	334264	145968	110000
1.2	Technical Team Leader- Java Technologies/ Spring Boot	08.1 Years to 10 Years	03 Years	367690	183000	112000
1.3	Technical Team Leader- Java Technologies/ Spring Boot	10.1 Years to 12 Years	05 Years	395000	200000	150000
1.4	Technical Team Leader- Java Technologies/ Spring Boot	12.1 Years to 14 Years	07 Years	441229	233000	180000
2.1	Technical Team Leader- Dot Net Technologies / Other Open-Source Technologies	06 Years to 08 Years	02 Years	334264	133895	115000
2.2	Technical Team Leader- Dot Net Technologies / Other Open-Source Technologies	08.1 Years to 10 Years	03 Years	367690	182185	135000
2.3	Technical Team Leader- Dot Net Technologies / Other Open-Source Technologies	10.1 Years to 12 Years	05 Years	395000	200000	155000
2.4	Technical Team Leader- Dot Net Technologies / Other Open-Source Technologies	12.1 Years to 14 Years	07 Years	450000	233000	195000
3.1	Solution Architect- Java Technologies/ Spring Boot	06 Years to 08 Years	02 Years	375000	145968	130000
3.2	Solution Architect- Java Technologies/ Spring Boot	08.1 Years to 10 Years	03 Years	400000	183000	145000
3.3	Solution Architect- Java Technologies/ Spring Boot	10.1 Years to 12 Years	05 Years	425000	200000	175000
3.4	Solution Architect- Java Technologies/ Spring Boot	12.1 Years to 14 Years	07 Years	450000	233000	185000
4.1	Solution Architect- Dot Net Technologies / Python Other Open-Source Technologies	06 Years to 08 Years	02 Years	375000	133895	115000
4.2	Solution Architect- Dot Net Technologies / Python Other Open-Source Technologies	08.1 Years to 10 Years	03 Years	400000	182185	127000

Sr. No.	Manpower Type	Total Work Experience (Minimum)	Relevant Experience (Minimum)	TIER I	TIER II	TIER III
4.3	Solution Architect- Dot Net Technologies / Python Other Open-Source Technologies	10.1 Years to 12 Years	05 Years	425000	200000	195000
4.4	Solution Architect- Dot Net Technologies / Python Other Open-Source Technologies	12.1 Years to 14 Years	07 Years	450000	233000	210000
5.1	Software Developer – Java Technologies/ Spring Boot	Fresher	0 Years	150000	33000	35000
