1.2 DEFINITIONS

In this document, the following terms shall have following respective meanings:

- 1) “Acceptance Test (AT)” means the acceptance testing of the ordered product & services on completion of installation and commissioning under the project.
- 2) “Acceptance Test Document” means a document, which defines procedures for testing the VISWAS Network against requirements laid down in the Agreement.
- 3) “Agreement” means the Service Level Agreement to be signed between the successful bidder and TENDERER including all attachments, appendices, all documents incorporated by reference thereto together with any subsequent modifications, the RFP, the bid offer, the acceptance and all related correspondences, clarifications, presentations.
- 4) “Authorized Representative/ Agency” shall mean any person/ agency authorized by either of the parties.
- 5) “Bidder” means any agency providing similar solutions as per the scope of work of RFP. The word Bidder when used in the pre-award period shall be synonymous with Bidder, and when used after award of the Contract shall mean the successful Bidder with whom the TENDERER signs the Service Level Agreement for executing the project.

- 6) "Contract" is used synonymously with Agreement.
- 7) "Corrupt Practice" means the offering, giving, receiving or soliciting of anything of value or influence the action of a public official in the process of Contract execution.
- 8) "Default Notice" means the written notice of Default of the Agreement issued by one Party to the other in terms hereof.
- 9) "Fraudulent Practice" means a misrepresentation of facts in order to influence a procurement process or the execution of a Contract and includes collusive practice among Bidders (prior to or after Bid submission) designed to establish Bid prices at artificial non- competitive levels and to deprive GoG of the benefits of free and open competition.
- 10) "Good Industry Practice" means the exercise of that degree of skill, diligence and prudence which would reasonably and ordinarily be expected from a reasonably skilled and experienced Operator engaged in the same type of undertaking under the same or similar circumstances.
- 11) "Go Live Date" means the date on which the FAT of all the links as ordered under the project as per the Work order has been successfully completed and accepted by the TENDERER.
- 12) "Law" shall mean any act, notification, by-law, rules and regulations, directive, ordinance, order or instruction having the force of law enacted or issued by the Central Government and/ or the Government of Gujarat or any other Government or regulatory authority or political subdivision of government agency.
- 13) "LoI" means Letter of Intent, which constitutes the intention of the GoG to place the Purchase Order with the successful bidder.
- 14) "SC" means the State Center Located at Gandhinagar, Gujarat.
- 15) "O&M Period" means period of 5 years starting with the successful, installation and commissioning and FAT of the individual Links as ordered under the project. The date of start of O&M shall start from the date of successful FAT of each link as ordered under the project.
- 16) "Planned link Outage" means unavailability of network services due to infrastructure maintenance activities such as configuration changes, up-gradation or changes to any supporting infrastructure.
- 17) "Request for Proposal" means the detailed notification seeking a set of solution(s), services(s), materials and/or any combination of them.
- 18) "Requirements" shall mean and include schedules, details, description, statement of technical data, performance characteristics, standards (Indian as well as International) as applicable and specified in the Agreement.
- 19) "Service" means provision of Contracted services for the TENDERER.
- 20) "Termination Notice" means the written notice of termination of the Agreement issued by one Party to the other in terms hereof.
- 21) "TENDERER" here shall mean "Home Department, Government of Gujarat"
- 22) "Unplanned link Outage" means an instance other than the planned link outage in which no traffic can pass on the selected link through which offices are connected.
- 23) "Uptime" means the time period when specified services with specified technical and service standards as mentioned in the Tender Document are available to the TENDERER and its user organizations. The uptime will be calculated as follows:
 Total time in a quarter (in minutes) less total Service Down time (in minutes) in the quarter.
- 24) "% Uptime" means ratio of 'up time' (in minutes) in a quarter to Total time in the quarter (in minutes) multiplied by 100.
- 25) "Downtime" means accumulated time during which the network is totally inoperable within the Scheduled Operation Time but outside the scheduled maintenance time.
- 26) "Scheduled Maintenance Time / Scheduled downtime" shall mean the time that the System is not in-service due to a scheduled work. Scheduled maintenance time is planned downtime with the prior permission (Minimum 48 Hour prior Notice) of the TENDERER.
- 27) "Scheduled operation time" means the scheduled operating hours of the System for the month. All

scheduled maintenance time on the system would be deducted from the total operation time for the month to give the scheduled operation time. The total operation time for the network will be 24x7x365.

- 28) "GSWAN" – Gujarat State Wide Area Network" is IT Backbone of the state of Gujarat.
- 29) "NETRAM" – District Command & Control Centre.
- 30) "TRINETRAM" – State Command & Control Centre.

SECTION: 2
PROJECT PROFILE
AND
SCOPE OF WORK

SECTION -2 PROJECT PROFILE

2.1 Introduction

The Gujarat Informatics Limited (GIL), on behalf of Home Department, Government of Gujarat, is issuing this **Request for proposal (RFP) for Selection of Implementing Agency for Supply, Installation, Commissioning and O&M of Connectivity** for its flagship program called **VISWAS**.

- The Proposed Network will ride as a backbone to implement VISWAS as a state-wide surveillance project across the state covering approximately 100+ cities in a phased manner. Phase-II of project will cover Expansion to Tier-3 Cities across the Gujarat State (51 Nagarpalikas) and three Tier-2 cities (Vadodara, Rajkot & Surat).

Core Objectives of VISWAS:

- Expansion of CCTV Camera Network in existing Cities: Strategic Locations, Traffic Junctions & Other Places.
- Expansion to Tier-3 Cities across the Gujarat State (51 Nagarpalikas) and three Tier-2 cities (Vadodara, Rajkot & Surat).
- Toll-Plazas on National Highways & State Highways.
- Inter-state Check Posts: With border sharing with Rajasthan, Madhya Pradesh, Maharashtra and Daman, Diu, Dadra & Nagar Haveli (DDNH).
- Integration of Existing CCTV Projects, like Smart City Projects (Ahmedabad, Gandhinagar, Vadodara, Surat, Rajkot & Dahod), CSITMS, etc.

To achieve these objectives in an uninterrupted and effective manner, a robust network is required to be deployed, the network needs to be planned to meet all the requirements not only for the current requirement but also to cater to the future scalability and expansion. At a high level, the project will involve installation and commissioning of leased bandwidth at multiple locations in selected cities

2.2 Project Description

- The project requires, providing of leased bandwidth for setting up an intercity surveillance network at locations of strategic importance, traffic junctions, entry and exit points of public places, Market places, Bus Stand and other sensitive areas of the city etc. The project shall Initially cover 51 Nagarpalikas and three Tier-2 cities (Vadodara, Rajkot & Surat). These Locations shall be connected to the District/City Control Centers from where the entire infrastructure shall be monitored and managed at district level. It may be noted that the district/ city control room would further connect to the State Center located at Gandhinagar through its existing District Centers of Gujarat Statewide Area Network (GSWAN).

2.3 Scope of Work

- 1) The TENDERER intends to procure Leased bandwidth for the VISWAS Project. The details of the locations and required bandwidth is as per **Annexures A & B to this document**.
- 2) The bidder is required to terminate the desired Leased bandwidth at the locations specified in Annexure A and B.
- 3) The bidder will have to provide the required bandwidth at each location on 24x7x365 days basis.
- 4) A Service Level Agreement will be signed with the successful bidder. The same will be signed initially

- for a period of 5 years which may be extended on mutual terms.
- 5) The bidder will be responsible for smooth functioning of the entire network connectivity, availability of sufficient quantities of all the critical components to maintain the guaranteed uptime will be the responsibility of the bidder. Bidders are requested to take into consideration the equipment's required at its own POP for providing connectivity while quoting for the tender.
 - 6) All costs to connect the links to last mile node must be borne by the bidder. The TENDERER/GIL will not pay or reimburse any last mile of extra work cost.
 - 7) Necessary approvals at building, RoW and from authorities at various locations for last mile related equipment is under bidder scope of work.
 - 8) The TENDERER or its designated agency will monitor the performance of the links during operation period.
 - 9) The TENDERER or its designated agency will be responsible for verification, validation of all works/services under the terms & conditions of the agreement.
 - 10) The payments to the Successful Bidder for the provisioned links will be made on quarterly basis.
 - 11) Full Duplex Bandwidth as Per Schedule of Requirement (price bid) has to be provisioned and implemented by the bidder. The bidder has to keep provision of increasing the bandwidth as per requirement and the rates will be as per finalized rates. The bidder will have to arrange fiber & other last mile equipment accordingly including media convertors wherever required.
 - 12) The bidder shall ensure that the network deployed is IPV4 as well as IPV6 compliant.
 - 13) The solution should be capable of supporting the communication requirement, which includes voice, video and data applications of the TENDERER over the contract period. The bidder is not only required to provide Leased connectivity at the locations given in Annexure A and B, but also maintain and upgrade this connectivity for the entire contract duration.
 - 14) As part of the preventive maintenance services the bidder shall be required to maintain the upkeep of the medium of connectivity, reinstating the medium, any other maintenance job required to meet the redundancy and SLAs as stipulated in the RFP.
 - 15) The successful bidder must deliver these bandwidths on Gigabit Ethernet optically or electrically which will be taken as input on the Router provided by the TENDERER. This is to ensure no physical changes are to be done in future up gradations.
 - 16) The bidder shall not cause any damage to the TENDERER's (or any other's) premises and property and shall perform restoration if any damage occurs. Trenches, path-cutting etc. shall be back-filled and restored to the original condition immediately after laying of the conduit/cable. The bidder shall plug conduits and entrance holes where the cabling has been installed with suitable sealing material to restore it to its original/best state. Wherever needed, the bidder shall have to retrofit existing facilities in order to install the new system.
 - 17) The bidder must ensure that all statutory and regulatory approvals (if required) are obtained for the laying of the said network within or outside the building (building in-charge, owners of the building etc.) and from various other authorities such as municipal bodies, central government, electricity utility companies etc. Bidder shall also be responsible to get required documentation completed for obtaining such approvals from time to time. This should not affect the timelines.
 - 18) The TENDERER has already issued another tender for procurement of hardware, software required for hardware and network equipment's required for the project. The Successful bidder will have to work in close coordination and synchronization with the SI of above-mentioned tender selected by the TENDERER for timely Implementation of the VISWAS Project. All locations must be connected on Optical Fiber only. No other last mile media type will be accepted.
 - 19) Last mile should be on Optical fiber only (Underground with required regulatory and legal compliances) terminating at Media equipment of the TENDERER.

2.4 Proposed Network Architecture:

- 2.4.1 The Bidder is required to provide Leased connectivity between remote/Edge locations, District/City Control Centre and GSWAN District Control Room as per Annexure-A & B. The backhaul from the district/City Control center locations to the State Control Center located at Gandhinagar will be through the existing Gujarat Statewide Area Network (GSWAN) district control room.
- 2.4.2 Bidder is also required to aggregate all the Leased bandwidth and terminate them as a single fibre port (In multiplication of 10 G Ports) per the below mentioned Annexures:
- Annexure A:** The Edge/City Locations to District/City Control Centre
 - Annexure B:** The District/City Control Centre to District Control room of GSWAN
- 2.4.3 Network solution offered by the bidder should have the security provisions to prevent any unauthorized access to anybody including bidder or its partners.
- 2.4.4 Bidder should adhere and conform to the Network Security Policy and guidelines of issued by DoT/TRAI/GoI/GoG from time to time.
- 2.4.5 The proposed network Architecture shall be as below:

2.5 Operation and Management of the Network

- 2.5.1 The successful bidder shall be bound by the Service Level Agreements (SLA) under the contract and is required to provide the support services, Operations & Maintenance services during the contract period of 5 years.
- 2.5.2 The Uptime of the Network shall be monitored through the NMS Tools being procured through a separate tender by the TENDERER. The Successful bidder will be responsible for discovery of the provided links during the contract period through the TENDERER's NMS only. However it shall be the

bidder responsibility to monitor the system for the day to day operations and management through its own monitoring tool.

- 2.5.3 The Successful bidder will have to do the following task and activities but not limited to during the O&M period:
- a) To day to day check and monitor the Link availability and Network
 - b) Testing and troubleshooting of the Network and Links as and when required
 - c) Complaint, incidents resolutions as per the SLA terms and conditions
 - d) Monitoring of Bandwidth Utilization, identification of unusual traffic
 - e) Preparation & submission of MIS reports as and when asked by the TENDERER
- 2.5.4 The successful bidder will have to make provision in the terminal equipment at their end for providing scalability in terms of bandwidth. The TENDERER may order an increase or decrease in bandwidth as and when required.

2.6 Project Management:

- 2.6.1 The bidder will be responsible to undertake and complete the works related to supply, installation and commissioning of leased bandwidth at any location (as and when required) in the State of Gujarat promptly and within the duration prescribed by the TENDERER.
- 2.6.2 The bidder will be responsible to provide the desired Bandwidth at all the locations at the agreed price. The works are to be completed on turnkey basis. The Bidder shall be responsible for implementation of the work as defined.
- 2.6.3 The bidder shall act as single Agency to organize and manage the entire project – including supply, installation and commissioning of all required Network Links and bandwidth for the entire duration of the project
- 2.6.4 The Bandwidth shall be supplied strictly in accordance with the specifications and SLA's as stated in this RFP.
- 2.6.5 Whenever the TENDERER wishes to withdraw/terminate a link, a written intimation will be placed with the selected bidder. Bidder is required to withdraw services at the location within 30 days of such intimation, further no charges shall be paid beyond the 30 days Duration.
- 2.6.6 Whenever a new location/Link is identified for the leased bandwidth requirement, order will be placed with the selected bidder at the contracted price. The selected bidder shall carry out site-survey at new location for feasibility of location for connectivity. Bidder is required to implement and commission the new link within 4 weeks from the date of work order.

2.7 Validity of the Contract:

- 2.7.1 Validity of this contract is for a period of 5 years from the date of Go Live. No upward revision will be permitted in rates of bandwidth during the contract tenure of 5 years.

2.8 Technical Specifications

2.8.1 Leased Bandwidth:

- a) Latency from point A to point B as defined in the Annexure's should not exceed 50 ms
- b) The bandwidth supplied should be symmetric, equal upload and download speed with 100 % throughput.
- c) Up time guarantee must be 99.5 % failing which a relevant penalty will be applicable.
- d) The bidder may aggregate the traffic from different locations within the City to a single aggregation point/exchange of the bidder and provide a single link of the capacity as sum total of all aggregated links. However, from the aggregation point, the ISP network should have the redundancy to ensure the traffic reaches the respective District/City Control Center.

e) **Delivery of bandwidth:**

- i. Installation & Commissioning of bandwidth: The Bidder is required to complete the Installation, commissioning of the leased bandwidth as per the below mentioned schedule:

Sr. No.	Installation Schedule	Timeline
1.	Schedule 1	24 Selected Cities – Cluster-I, II & III- within 10 weeks**
2.	Schedule 2	Next 27 Selected Cities– Cluster-I, II & III within 18 weeks **
3.	Schedule 3	Remaining Vadodara, Surat City & Existing Cities - within 26 weeks**
4.	Schedule 4	Additional as a part of the Rate Contract- within 4 weeks from**

****from the date of issuance of work Order**

- ii. Further successful bidder shall be required to Increase/decrease the bandwidth required at any location (after one time commissioning) within 7 Days from the date of issuance of the written Order/Communication.
- iii. The bidder must deliver the required bandwidth on a fiber optic network at the respective locations as per **Annexure-A & B**. The TENDERER will provide necessary space and raw power for termination of the links.
- iv. The Bidder will have to terminate the required bandwidth at the L2 Switch provided by the TENDERER at the end locations/points.
- v. All costs to connect the links to last mile node i.e. till the end point termination at the router/switch placed at the edge junction locations and the control center's as defined as Point A & B as defined in the **Annexures A & B** has to be borne by the bidder. TENDERER will not pay or reimburse any last mile of extra work cost.
- vi. The bidder has to use the IP addressing schema provided by the TENDERER/DST

2.9 MIS Reports:

- 2.9.1 The Bidder should submit the reports on a regular basis in a mutually decided format.
- 2.9.2 Soft copy of these reports shall be delivered/submitted via email/on paper at specific frequency and to the pre-decided list of recipients.
- 2.9.3 The Bidder should also submit certain information as part of periodic review as and when required by the TENDERER.
- 2.9.4 The minimum set of reports required are as given below. The TENDERER may request such reports at any time irrespective of a predefined scheduled. Moreover, any new report may be requested by TENDERER during the tenure of the contract.

Daily Reports	<ul style="list-style-type: none"> • Summary and status of issues / complaints logged at the Help Desk • Overall & link wise Bandwidth utilization. • Summary of resolved, unresolved and escalated issues / complaints
