Specifications:

1. Secures unlimited sub domains of a particular domain through “*.” extension.
2. Subject Alt Names (SANs) addition capability for compatibility with mobile devices or applications that do not support the wildcard character (*)
3. Minimum 128-bit and Maximum 256-bit SSL encryption should be available.
4. ECC support 384-bit key.
5. Supports up to TLS 1.3 protocol along with SHA 2.
6. Minimum 2048 bit and Maximum 4096-bit key support.
7. Authentication between web browsers to web servers, as well as server to server.
8. Trusted by more than 99% of all browsers.
9. Unlimited re-issue guarantee within certificate lifetime - reduces unexpected costs due to minor errors while deploying SSL certificates.
10. Unlimited server licenses – Fresh copy for each server.

Note:

1. The work order will be awarded to the bidder quoting the lowest total amount (without taxes).
2. Payment Term – Payment will be released after successful delivery of Wild Card certificate to GSDC and confirmation by GSDC of successful deployment in at least one application and one website.
3. Date of expected supply of the SSL – within 7 days from Work order.
